SIGNATURE SESSIONS

Clear Thinking, Clear Communication, Better Execution

How leaders reduce friction by clarifying priorities, language, decisions, responsibilities, and follow-through.

The Clarity Operating System

A practical framework to organize, prioritize, delegate, execute, and validate work without losing accountability.

From Friction to Flow

A working session that produces clearer roles, communication rules, a workflow map, decision points, and a 30-day action plan. AI is considered only where useful.

THE OUTCOME PATH

1 See the friction

Recognize where work, communication, or decisions break down.

2 Clarify the work

Define priorities, roles, decisions, standards, and ownership.

3 Act with clarity

Leave with practical next steps and accountable follow-through.

FORMATS AND FEES

\$5,000**Keynote**

45-60 min

\$7,500**Half-day**

Up to 3.5 hours

\$12,500**Full-day**

Up to 6 hours

\$8,500**Book program**

Approx. 3 hours

BUILT FOR EVENT PLANNERS AND LEARNING LEADERS

A practical fit for rooms that need clearer work - not more complexity.

AUDIENCE FIT

- Leadership teams and manager programs
- Industry and trade associations
- Chambers of commerce and founder groups
- Product, e-commerce, distribution, and professional services teams
- Teams improving communication, responsibility, decisions, workflow, or execution

WHAT THE ORGANIZER RECEIVES

- Organizer discovery and audience alignment
- Customized session description and speaker bio
- Slides and attendee takeaway where applicable
- Preparation guidance and technical requirements
- Sanitized, pre-approved live example when appropriate

WHY THIS TOPIC MATTERS NOW

47%

lower likelihood of frequent burnout when employees strongly agree they know what is expected. Gallup + Workhuman.

69%

of surveyed employers identify analytical thinking as a core skill. World Economic Forum, 2025.

68%

of people said they lacked enough uninterrupted focus time. Microsoft Work Trend Index.

ORGANIZER CHECKLIST

1 Outcome

What should the audience understand or do differently afterward?

2 Audience

Who is in the room, what work needs to improve, and what is at stake?

3 Format

Does the event need a keynote, an interactive workshop, or an executive offsite?

4 Evidence

Will the speaker use practical examples and connect ideas to everyday work?

5 Boundaries

Is it clear that this is organizational guidance, not engineering or integration design?

6 Rights

Are travel, recording, redistribution, and internal licensing agreed in writing?

ABOUT SAHAP GIZLEN

Sahap Gizlen is an organizational effectiveness advisor, author, and speaker. He is the founder of Gizlen Global and Lordan Labs and author of *The Clarity Operating System*. He holds a Master of Public Administration in International Economic Policy and Management from Columbia University. His work focuses on communication, role clarity, decision-making, workflow, and sustained execution. He discusses AI as a work tool when relevant, not as an engineer or technical systems lecturer.
